Your reasons why

Gain deeper expertise on various topics relevant to support PFS' activities.

Navigate and understand the regulatory framework and legal requirements for support PFS.

Navigate the complex landscape of support PFS' governance and compliance.

Identify opportunities to improve internal organisational processes.

Obtain a sufficient level of factual consideration to make informed business decisions.

Comply with the CSSF increasing expectations regarding the staff education.

Description

The curriculum uses a pedagogical approach aimed at providing an extensive learning universe, complemented by the ability to blend expert-led modules and digital training solutions for an optimal learning experience.

Our programme provides participants with the latest regulatory developments, market trends, and operational best practices, equipping them with actionable insights and practical expertise essential for business success.

Made of complementary and modular building blocks, our curriculum will help you identify the best learning experience for you and your teams. They are proposed as comprehensive training programmes, but individual training modules can also be selected as standalone courses to meet specific needs. PwC Academy can help you create a customised pathway to align with your objectives.

Our modular training offering
