

e-Collaborative Solutions

Changing the way you work

As digital transformation gains ground, organisations look for simple and flexible ways to manage their data and projects. We developed a collection of user-friendly e-Collaborative Solutions (e-CS) that combine data and project management features and are accessible 24/7 through a simple internet connection.

We created an adaptable environment that you can model to match your needs and organisation.

Only a couple of days is required to jump into your digital experience.

Think about it

Are the following statements in line with your day-to-day reality?

Searching old files is a mass, I want to be able to find them easily by typing keywords. <input type="checkbox"/>	I travel a lot and need to have a quick access to my files to work even through my phone or tablet. <input type="checkbox"/>
The name of the files on my network looks like: version1 bis.doc, version 3 doc, version revised.doc, and I never know the right version I have to work on. <input type="checkbox"/>	I am copied in thousands of e-mails; I have nothing to deal with. I have no easy view on important things to do due to this wave of information. <input type="checkbox"/>
I want to have a secure web access to my data and avoid as much as possible sending sensitive information via e mails. <input type="checkbox"/>	I do not want to waste time for the deployment of a collaborative solution and want something quickly available. <input type="checkbox"/>
I send the same information to different stakeholders, it would be so easy to share it once. <input type="checkbox"/>	I want to manage my projects and the respect of the deadlines at a glance. <input type="checkbox"/>
I want to restrict the access to some information without duplicating softwares or creating administrative burden for my collaborators. <input type="checkbox"/>	I always adapt to the constraint of the software I use and I am looking for a dedicated solution sticking to my organisation and needs. <input type="checkbox"/>

Our solution

e-Collaborative Solutions is a web platform based on .NET technology totally designed and managed by PwC Luxembourg. Based on the experience of the version 1.0 and the feedback of our clients, we upgraded our solution to build a close and simple answer for clients willing to efficiently take the best of technology in 48 hours.

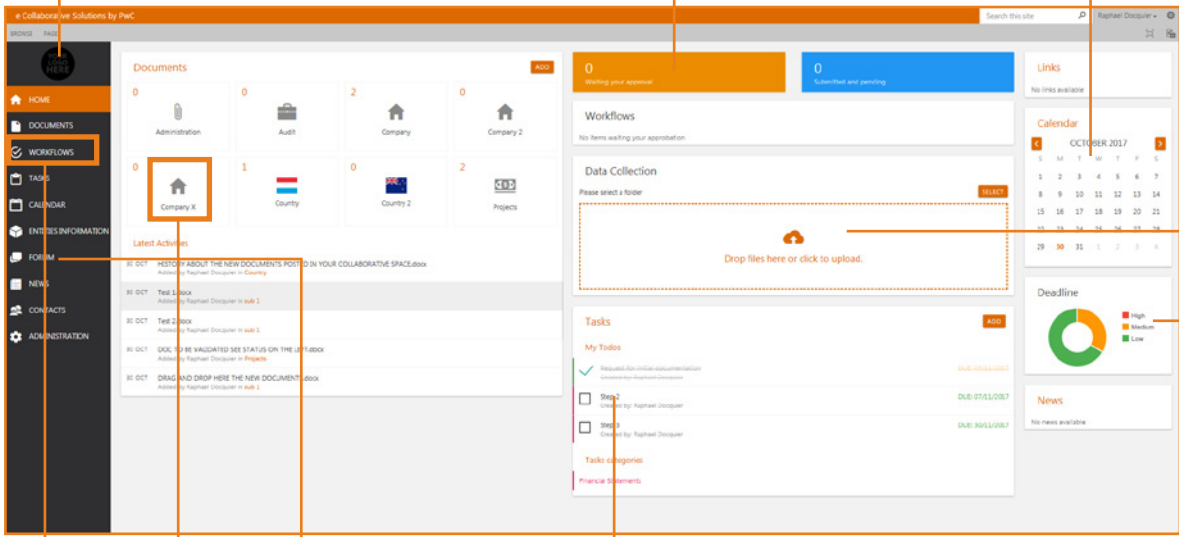

Main features at a glance

Your Logo, your colours

Your validation requests via workflows

Calendar function

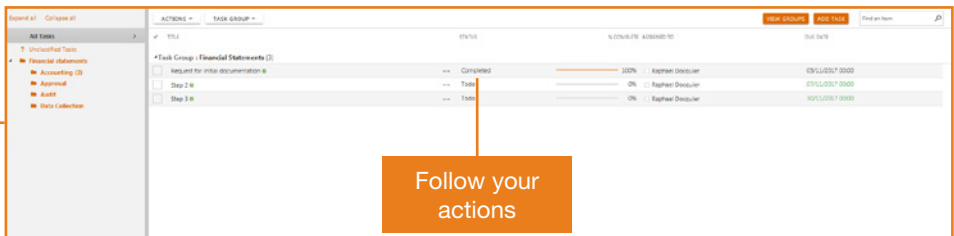

Easy data collection

User friendly display of deadlines

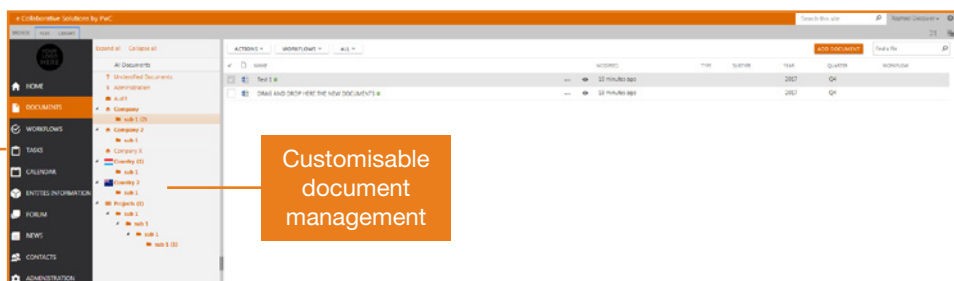

Forum

Tick your task and do the next one!

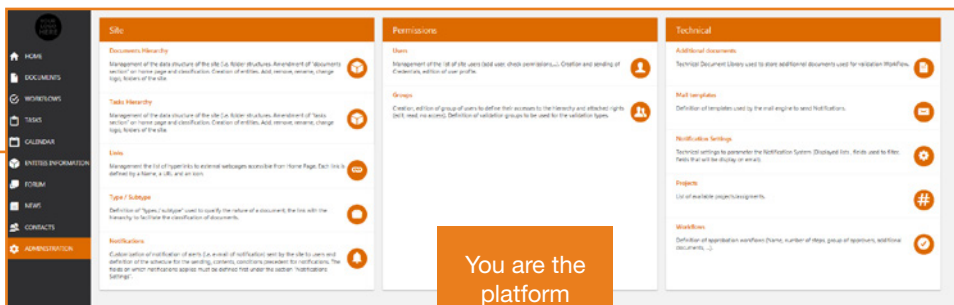

Try it!
Contact: LU-EGC@lu.pwc.com

Follow your actions

Customisable document management

You are the platform administrator

Security

The platform is **encrypted** with SSL certificate (RSA 2048 bits).

In addition, thanks to an **efficient** and **flexible** management of permissions and access rights, e-CS allows you to restrict the access of each user to the sole information necessary for its work.

Our services

We help you implement and personalise the tool and set up the appropriate governance to make sure you can independently manage it. We take care of the technical aspects.

A multi-disciplinary team dedicated to your needs

Our team is a melting pot of IT and business-oriented professionals who understand your needs and design tools and/or dedicated modules fit for your challenges.

Portability

The platform is **mobile-friendly**.

e-CS is designed to adapt to **any device**, with **no restriction** in terms of features or usability.

Why PwC Luxembourg?

PwC Luxembourg (www.pwc.lu) is the largest professional services firm in Luxembourg with 2,850 people employed from 77 different countries. PwC Luxembourg provides audit, tax and advisory services including management consulting, transaction, financing and regulatory advice. The firm provides advice to a wide variety of clients from local and middle market entrepreneurs to large multinational companies operating from Luxembourg and the Greater Region. The firm helps its clients create the value they are looking for by contributing to the smooth operation of the capital markets and providing advice through an industry-focused approach.

At PwC, our purpose is to build trust in society and solve important problems. We're a network of firms in 158 countries with more than 236,000 people who are committed to delivering quality in assurance, advisory and tax services. Find out more and tell us what matters to you by visiting us at www.pwc.com and www.pwc.lu.
